

DEERPATH CAPITAL BECOMES A SIGNATORY OF THE PRINCIPLES FOR RESPONSIBLE INVESTMENT (PRI)

An approach to investing that aims to incorporate ESG factors into investment decisions

New York, NY - We are pleased to announce that Deerpath Capital Management, LP has become a signatory of the United Nations' Principles for Responsible Investment (PRI). The PRI is recognized as the leading global network for investors who are committed to integrating environmental, social and corporate governance (ESG) considerations into their investment practices and ownership policies.

"Responsible investing has always been central to Deerpath's investment process, from origination to exit," said James H. Kirby, Deerpath's President. "The PRI provides a framework to further our approach and overall commitment to responsible investing. We are excited to be welcomed by the PRI and have the opportunity to work with other signatories to enhance the effectiveness of our ESG policies and procedures."

By becoming a signatory, Deerpath is publicly committed to investing its funds in accordance with PRI's six core principles. Deerpath has joined the community of signatories who share the firm's concerns about the alignment of investment activity with the broader interests of driving positive impact within our society and the global economy.

About the PRI

The PRI is the world's leading proponent of responsible investment. The organization works to understand the investment implications of ESG factors and to support its international network of investor signatories in incorporating these factors into their investment and ownership decisions. The PRI acts in the long-term interests of its signatories, of the financial markets and economies in which they operate and ultimately of the environment and society as a whole.

The six Principles for Responsible Investment are a voluntary and aspirational set of investment principles that offer a menu of possible actions for incorporating ESG issues into investment practice. The Principles were developed by investors, for investors. In implementing them, signatories contribute to developing a more sustainable global financial system. There are over 1,700 signatories, from over 50 countries, representing US\$62 trillion.
